

Tyler Shoemake

Software Engineer II

 tylershoemake

 tyshoe

 tyshoe2010@gmail.com

Results-driven software engineer with a passion for developing innovative solutions. Leveraging 3 years of experience in full-stack development to deliver high-quality software products. Seeking to contribute expertise to drive impactful projects while furthering my knowledge of technology.

Work Experience

Software Engineer

Idaho Forest Group | Apr 2022 - Present

- Developed human-machine interfaces (HMIs) to monitor and control production, logistics, and quality control systems across the organization, providing real-time operational insights
- Designed and implemented automated solutions to streamline operational workflows and enhance efficiency across various processes which contributed to increased production by 150%
- Created and maintained database structures to support efficient data tracking for inventory management and operational reporting
- Collaborated on creating industry standards for HMIs to ensure consistency, usability, and scalability across monitoring and control systems
- Identified and resolved system bugs in an automated inventory system, increasing system reliability and reducing downtime
- Developed optimized scheduling systems to improve asset management and placement of lumber across warehouses

Quality Assurance Technician

Georgia Pacific LLC | Dec 2019 - June 2022

- Collected, managed, and analyzed data on raw materials and finished products to ensure adherence to quality standards and enhance production consistency
- Calibrated and maintained laboratory equipment to support accurate and reliable testing processes
- Validated and processed defective raw materials, identifying workmanship issues and presenting evidence to suppliers to drive quality improvements
- Collaborated with Quality, Operations, and Safety teams to implement initiatives aligned with MBM® guiding principles, fostering a culture of continuous improvement
- Delivered clear and actionable insights to Quality and Operations teams, as well as to external suppliers, to support quality and process optimization
- Recommended cost-saving strategies that reduced waste and optimized resources, resulting in approximately \$1,200,000 in annual savings by addressing issues with defective materials
- Supported SQF (Safe Quality Food) certification initiatives at the facility level to enhance food safety compliance and standards

Customer Service Associate

Lowe's Companies, Inc. | Nov 2018 - Jan 2020

- Assessed customer needs and provided tailored technical assistance to enhance customer satisfaction and support informed purchasing decisions
- Maintained in-depth knowledge of products, services, and store policies, enabling quick and accurate assistance for a variety of customer inquiries
- Operated forklifts and advanced heavy equipment safely and efficiently, contributing to a secure and well-organized work environment

Education

Bachelor of Science in Computer Science

The University of Southern Mississippi | Dec 2022

Associate of Arts in General Studies

Jones College | May 2020

High School Diploma

Petal High School | May 2018
